i hope for part 2 i really enjoyed this game. My pick for GotY 2018. The simple complexity and sheer artistic statement made by Cute Cats PuZZles leaves it in a class of its own for all-time.. i beat the entire game in 9 minutes, not challenging. no adjustment for the volume so i couldnt hear anything the entire time.. so i was having fun playing this game but ran out of pictures real fast so i wanted to check the steam folders and see if i could add pics, can someone explain why the folders are called hentai puzzles, i definently wasnt prepared
